3	Technical drawing	57
3.1	Basic geometric constructions	
	Lines and angles	58
	Tangents, Circular arcs, Polygons	59
	Inscribed circles, Ellipses, Spirals	60
	Cycloids, Involute curves, Parabolas	61
3.2	Graphs	
	Cartesian coordinate system	62
	Graph types	63
3.3	Drawing elements	
	Fonts	64
	Preferred numbers, Radii, Scales	65
	Drawing layout	66
	Line types	67
3.4	Representation	
	Projection methods	69
	Views	71
	Sectional views	73
	Hatching	75
3.5	Entering dimensions	
	Dimensioning rules	76
	Diameters, Radii, Spheres, Chamfers, Inclines, Tapers, Arc dimensions	78
	Tolerance specifications	80
	Types of dimensioning	81
	Simplified presentation in drawings	83
3.6	Machine elements	
	Gear types	84
	Roller bearings	85
	Seals	86
	Retaining rings, Springs	87
3.7	Workpiece elements	
	Bosses, Workpiece edges	88
	Thread runouts, Thread undercuts	89
	Threads, Screw joints	90
	Center holes, Knurls, Undercuts	91
3.8	Welding and Soldering	
	Graphical symbols	93
	Dimensioning examples	95
3.9	Surfaces	
	Hardness specifications in drawings	97
	Form deviations, Roughness	98
	Surface testing, Surface indications	99
3.10	ISO Tolerances and Fits	
	Fundamentals	102
	Basic hole and basic shaft systems	106
	General tolerances	110
	Fit recommendations	111
	Roller bearing fits	112
	GD & T (Geometric Dimensioning & Tolerancing)	112
4	Materials science	115
4.1	Materials	
	Material characteristics of solids	116
	Material characteristics of liquids and gases	117
	Periodic table of the elements	118
4.2	Designation system for steels	
	Definition and classification of steel	120
	Material codes, Designation	121
4.3	Steel types, Overview	
	Structural steels	128
	Case hardened, quenched and tem- pered, nitrided, free cutting steels	132
	Tool steels	135
	Stainless steels, Spring steels	136
4.4	Finished steel products	
	Sheet, strip, pipes	139
	Profiles	143
4.5	Heat treatment	
	Iron-Carbon phase diagram	153
	Processes	154
4.6	Cast iron materials	
	Designation, Material codes	158
	Classification	159
	Cast iron	160
	Malleable cast iron, Cast steel	161
4.7	Foundry technology	
	Patterns, Pattern equipment	162
	Shrinkage allowances, Dimensional tolerances	163
4.8	Light alloys, Overview of Al alloys	
	Wrought aluminum alloys	166
	Aluminum casting alloys	168
	Aluminum profiles	169
	Magnesium and titanium alloys	172
4.9	Heavy non-ferrous metals,	
	Overview	173
	Designation system	174
	Copper alloys	175
4.10	Other metallic materials	
	Composite materials, Ceramic materials	177
	Sintered metals	178
4.11	Plastics, Overview	
	Thermoplastics	182
	Thermoset plastics, Elastomers	184
	Plastics processing	186
4.12	Material testing methods,	
	Overview	188
	Tensile testing	190
	Hardness test	192
4.13	Corrosion, Corrosion protection	
		196
4.14	Hazardous materials	
		197

5 Machine elements		201
5.1 Screw threads (overview)	202	
Metric ISO threads	204	
Whitworth threads, Pipe threads	206	
Trapezoidal and buttress threads	207	
Thread tolerances	208	
5.2 Bolts and screws (overview)	209	
Designations, strength	210	
Hexagon head bolts & screws	212	
Other bolts & screws	215	
Screw joint calculations	221	
Locking fasteners	222	
Widths across flats, Bolt and screw drive systems	223	
5.3 Countersinks	224	
Countersinks for countersunk head screws	224	
Counterbores for cap screws	225	
5.4 Nuts (overview)	226	
Designations, Strength	227	
Hexagon nuts	228	
Other nuts	231	
5.5 Washers (overview)	233	
Flat washers	234	
HV, Clevis pin, Conical spring washers	235	
5.6 Pins and clevis pins (overview)	236	
Dowel pins, Taper pins, Spring pins	237	
		Grooved pins, Grooved drive studs, Clevis pins
		238
5.7 Shaft-hub connections		
Tapered and feather keys	239	
Parallel and woodruff keys	240	
Splined shafts, Blind rivets	241	
Tool tapers	242	
5.8 Springs, components of jigs and tools		
Springs	244	
Drill bushings	247	
Standard stamping parts	251	
5.9 Drive elements		
Belts	253	
Gears	256	
Transmission ratios	259	
Speed graph	260	
5.10 Bearings		
Plain bearings (overview)	261	
Plain bearing bushings	262	
Antifriction bearings (overview)	263	
Types of roller bearings	265	
Retaining rings	269	
Sealing elements	270	
Lubricating oils	271	
Lubricating greases	272	
6 Production Engineering		273
6.1 Quality management		
Standards, Terminology	274	
Quality planning, Quality testing	276	
Statistical analysis	277	
Statistical process control	279	
Process capability	281	
6.2 Production planning		
Time accounting according to REFA	282	
Cost accounting	284	
Machine hourly rates	285	
6.3 Machining processes		
Productive time	287	
Machining coolants	292	
Cutting tool materials, Inserts, Tool holders	294	
Forces and power	298	
Cutting data: Drilling, Reaming, Turning	301	
Cutting data: Taper turning	304	
Cutting data: Milling	305	
Indexing	307	
Cutting data: Grinding and honing	308	
6.4 Material removal		
Cutting data	313	
Processes	314	
6.5 Separation by cutting		
Cutting forces	315	
		Shearing
		Location of punch holder shank
		316
		317
6.6 Forming		
Bending	318	
Deep drawing	320	
6.7 Joining		
Welding processes	322	
Weld preparation	323	
Gas welding	324	
Gas shielded metal arc welding	325	
Arc welding	327	
Thermal cutting	329	
Identification of gas cylinders	331	
Soldering and brazing	333	
Adhesive bonding	336	
6.8 Workplace safety and environmental protection		
Prohibitive signs	338	
Warning signs	339	
Mandatory signs,		
Escape routes and rescue signs	340	
Information signs	341	
Danger symbols	342	
Identification of pipe lines	343	
Sound and noise	344	

7 Automation and Information Technology 345

<p>7.1 Basic terminology for control engineering Basic terminology, Code letters, Symbols 346 Analog controllers 348 Discontinuous and digital controllers .. 349 Binary logic 350</p> <p>7.2 Electrical circuits Circuit symbols 351 Designations in circuit diagrams 353 Circuit diagrams 354 Sensors 355 Protective precautions 356</p> <p>7.3 Function charts and function diagrams Function charts 358 Function diagrams 361</p> <p>7.4 Pneumatics and hydraulics Circuit symbols 363 Layout of circuit diagrams 365 Controllers 366 Hydraulic fluids 368 Pneumatic cylinders 369 Forces, Speeds, Power 370 Precision steel tube 372</p> <p>7.5 Programmable logic control PLC programming languages 373 Ladder diagram (LD) 374 Function block language (FBL) 374</p>	<p>Structured text (ST) 374 Instruction list 375 Simple functions 376</p> <p>7.6 Handling and robot systems Coordinate systems and axes 378 Robot designs 379 Grippers, job safety 380</p> <p>7.7 Numerical Control (NC) technology Coordinate systems 381 Program structure according to DIN .. 382 Preparatory functions, Auxiliary functions 383 Tool offset and Cutter compensation .. 385 Operating movements 386 PAL cycles in milling machines 388 PAL cycles in lathes 390</p> <p>7.8 Information technology Numbering systems 393 ASCII code 394 Symbols for program flow charts ... 395 Program flow chart, Structograms .. 396 WORD commands 397 EXCEL commands 398</p>
